

**SEVENTH INTERNATIONAL CONFERENCE  
SUSTAINABLE FOOD AND POSTHARVEST TECHNOLOGIES - INOPTEP 2021  
VRSAC, SERBIA, April 18<sup>th</sup> – 23<sup>th</sup>, 2021**

**INFORMATION ON VERIFICATION OF PARTICIPATION AT  
INOPTEP CONFERENCE 2021**

The INOPTEP 2021 conference will be a hybrid, due to the current Covid 19 pandemic. This means that direct or online participation in the conference will be possible. Participants, after paying the registration fee, acquire the right to participate in the INOPTEP 2021 conference. They choose the way they will participate in the conference. They can pay for the arrangement in the hotel "Srbija", in Vrsac and be direct participants, if the official measures of the state bodies allow it. Another option is online participation. If the participant declares for such type of participation, he / she will receive an authorized link to access the conference via the ZOOM platform.

There are two forms of presenting your work at a conference: oral and poster presentation of research results. The final decision on the form of your presentation will be published on the PTEP website. We will do our best to comply with your wishes, if you have communicated them to us.

**ORAL PRESENTATION:**

Direct or online conference participants can have an invited or standard lecture. Regardless of the type of these two, the presentation of the research is in ENGLISH. Direct participants exhibit their work in the conference hall. Their oral presentation can be seen on the screen in the hall, but also on the monitors of the online participants of the conference. You can see the Power point presentation and a small window where you can see the presenter. When the prepared presentation is over, questions can be asked from the hall or through the ZOOM platform It is similar with the presentation of online participants. They previously (at least 3 days before the conference - [kulic@uns.ac.rs](mailto:kulic@uns.ac.rs)) submit their presentation in ppt format, if they want the presentation to be presented by our technical service or in pdf format, if they will do it themselves. We need to have one of these two forms of presentation. We undertake to respect the copyright of the author of the presentation and not to use it for other purposes. The duration of presentations will be determined by the conference program, and preliminary, that is: 20 minutes for invited lectures, 10-15 minutes for other lectures. Authors who, in addition to the paid registration fee, meet these conditions and procedures, verified their participation in the INOPTEP 2021 conference.

**POSTER PRESENTATION:**

The basic form of poster presentation is a poster in ENGLISH in the poster room of the conference. You need to prepare the poster according to the poster instructions. You can bring the poster and place it in the poster room. You can also send the poster to your colleagues who come to participate directly, and you can also submit the printed poster to the technical secretaries of the PTEP Association (Krstan Kešelj - 0621634952 or Zoran Stamenković - 0642674021) at the Faculty of Agriculture in Novi Sad. Next possibility (for abroad participants) is our preparing of poster. The poster must be submitted to the conference organizers in **pdf format** 7 days before the conference at: [kulic@uns.ac.rs](mailto:kulic@uns.ac.rs). **Poster must be presented and defended.** The verbal presentation of the poster is a brief information about the research topic and the main conclusion. It takes 1-2 min. After that, the conference participants can ask questions, to which one of the authors / co-authors answers (2-3 min). The whole verbal presentation / discussion of the poster cannot last longer than 5 min. This type of verbal presentation of the poster is realized from the conference hall, where the poster stands on the screen all the time and is seen by both direct and online conference participants. The online presentation of the poster is identical. The author / co-author speaks through the ZOOM platform, briefly presents, and then answers questions (**5 minutes in total**). If this procedure is carried out, the paper is defended and participation in the INOPTEP 2021 conference is verified.

For all dilemmas and additional information about the presentation of your research at INOPTEP 2021, please contact us at [mbab@polj.uns.ac.rs](mailto:mbab@polj.uns.ac.rs) .
